

TECHPRO
CNC SOLUTIONS

OUR PERFECT QUALITY MAKES IT POSSIBLE YOUR CREATIONS

We are Manufacturer of

- ✦ CNC Fiber Laser Cutting Machine
- ✦ CNC Laser with Plasma Cutting Machine
- ✦ CNC Plasma with Oxyfuel Cutting Machine
- ✦ CNC Plasma Cutting Machine (Table Type)

ABOUT US

- ❖ Welcome to **TECHPRO CNC SOLUTIONS**, your trusted source for cutting-edge CNC Fiber Laser and Plasma with Oxyfuel Cutting Machines.
- ❖ Our company, **TECHPRO CNC SOLUTIONS** is the fastest growing company in the field of CNC Laser, Plasma Cutting Machine in India. We have manufacturing facilities at Ahmedabad, Gujarat.
- ❖ **TECHPRO CNC SOLUTIONS** is bound to provide standardized industry solutions, genuine products and long term business relationship.
- ❖ Feel pleasure to offer our machines with best quality and best after sales services, with trouble free working providing high productivity.
- ❖ We are looking forward to continuing this journey with the support of our proud clientele, Customer Satisfaction is our Definition of Success.
- ❖ Experience the excellence and innovation with Our every machine.

Power Sources

Plasma Power Source

Plasma Consumables

Fiber Laser Power Source

Consumables

Cutting Head : Raytools

Servo Motor & Drivers: Panasonic

Gear Box: Shimpo

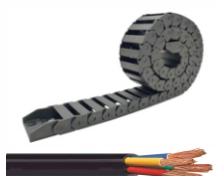

Chiller

CypCut

Nesting Software

Plasma Controller

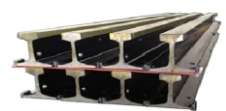

Drag Chain & Cable: IGUS

LM Guide Way: HIWIN

Rack & Pinion: Y.Y.C

Heavy Duty Rail

WE ARE MANUFACTURING

CNC FIBER LASER CUTTING MACHINE

» CNC Fiber Laser Cutting machine is used specifically in small & large plants where lower to higher thickness of MS, SS, aluminium, brass, copper has to be cut in Sheet-Metal Applications.

» We have Laser Cutting Capacity available up to 0.5 to 30mm, according to Power Sources..

» Different Table size is also available like 2x4m, 2x6m, 2.5x6.5m, 2.5x8m and other customizable sizes.

» Our Dual Pallet Fiber Laser Cutting Machine is ideal for continuous mass production. The rear pallet is loaded with a new sheet while the front table is cutting. After completion, the rear table advances with a fresh sheet, minimizing downtime for efficient, uninterrupted laser cutting.

CNC FIBER LASER WITH PLASMA CUTTING MACHINE (GANTRY TYPE)

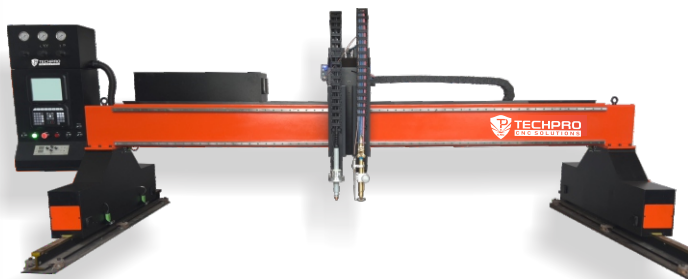

» Gantry type CNC Fiber Laser with Plasma Cutting machine is used specifically in large plants where heavy thickness of MS & SS has to be cut in Sheet-Metal Applications.

» We have Laser Cutting Capacity is available upto 0.5 to 30mm, Plasma cutting capacity is available up to 0.5 mm to 50 mm and Oxyfuel Cutting Capacity is available up to 6 mm to 250 mm of MS.

» Different Gantry size is also available like 2x6.5m, 3x6.5m, 3x12.5m, 4x20.5m and other customizable sizes.

CNC PLASMA WITH OXYFUEL CUTTING MACHINE (GANTRY TYPE)

» Gantry type CNC Plasma with Oxyfuel Cutting machine is used specifically in large plants where heavy thickness of MS has to be cut in profiles.

» We have Plasma cutting capacity is available up to 0.5 mm to 50 mm and Oxyfuel Cutting Capacity is available up to 6 mm to 250 mm of MS.

» Different Gantry size is also available like 2x6.5m, 3x6.5m, 3x12.5m, 3x30.5m and other customizable sizes.

CNC PLASMA WITH OXYFUEL CUTTING MACHINE (TABLE TYPE)

» Table type CNC Plasma cutting machine is for small production factories and job workers who wants to cut MS from 0.5mm to 25mm thickness with various capacity Plasma Sources.

» The most common table size is 1.5 x 3m which can accommodate sheets and plats of 5' x 10' which are usually available in market.

» This compact machine requires less space and convenient to operate for regular production.
